ABOUT

I started programming by contributing to GNU / Linux distributions then I involved in web projects with my Python experience. Later I developed mobile and desktop applications. Now I am interested in Blockchain technologies and Deep Learning. I am married and have a daughter.

OPEN SOURCE PROJECTS

DOSH - A zero-dependency way to standardize all your development-related commands.
Chainless - Free monthly planner that makes your life better.
Kuzgun - RSS reader for geeks who miss Google Reader

EXPERIENCE

Lead Software Developer	Coachfrog AG Berlin, Germany	Oct 2015 - Present
--------------------------------	---------------------------------	--------------------

I took on the role of team leader in a large project with multiple sub-projects. Each project used different technical skills such as Go, Nodejs and Python. The essential component of the project is a calendar and booking system.

Co-founder, CTO	Radity GmbH Zürich, Switzerland	Jul 2012 - Present
------------------------	------------------------------------	--------------------

We build tech startups, create digital products, deliver technology projects and put together tailored development teams for startups and grownups. SwissLife, Sherpany, and Coachfrog are some of the companies that we worked.

Software Developer	Markafoni Istanbul, Turkey	Oct 2011 - Jun 2012
---------------------------	-------------------------------	---------------------

I worked in Zizigo ERP project for fixing errors, optimising code base, adding new features, etc. My first task was to send a notification mail to the customers about pending orders in Markafoni ERP. Also, I used Fabric for the deployment commands and Sphinx for writing documentation.

Software Developer	Artistanbul PR Istanbul, Turkey	Sep 2009 - Oct 2011
---------------------------	------------------------------------	---------------------

Software Developer (Intern)	TUBITAK Kocaeli, Turkey	Aug 2009 - Oct 2009
------------------------------------	----------------------------	---------------------
